None

OTHER ACTIVITIES1. Communications Films

Sound equipment has been repaired and tested. Sound retakes required in Film No. 1 will be completed as scheduled on Wednesday and Thursday, 23 and 24 May.

The script for [ ] the second communications film, was approved, with corrections, by the Technical Advisors, CI Staff, WE Division and FI/OPS. These corrections have been incorporated in the final version of the script. A shooting script will be prepared, cast selected, sets and properties planned in preparation for the scheduled shooting to begin on 2 July.

25X1

Rear projection, a technique used currently in television production to provide realistic foreign backgrounds, has been investigated for use in training films. It is planned to purchase the projector and screen and an initial supply of slides and prints for use in the production of the film on Personal Meetings as well as for subsequent films.
